

Application No.: 10/034,042

Response to Restriction having a mailing date of May 4, 2005

Remarks

Claims 27-46, directed to an article, are currently pending; claims 47-49, directed to a method, have been withdrawn. The Examiner has limited the consideration of claim 38 to the glove species alone.

In response to the Office requirement mailed May 4, 2005, Applicant elects to prosecute the species described as the generation of an observable contrast by comparing an inside and an outside surface of the article of the present application. That is, Applicant elects claims 27-32, and 34-40 for prosecution in the present application.

This election is made without traverse. Applicant specifically reserves the right to seek patent protection for non-elected subject matter by divisional application.

Should there be any comment of questions, please contact the undersigned at: (770) 587-8606.

Respectfully submitted,

Maris Vistins
